Thank you for your interest in adopting a parrot from Parrot Sanctuary. Parrot Sanctuary is a registered non-profit (Ontario#1857999) specializing in rescue, rehabilitation & rehoming of companion parrots.

Our adoption process will take some time – usually a few weeks at a minimum – and involves both a home visit to the adopting home and at least two visits with the bird (by appointment). We want to make sure that the bird(s) you are adopting is right for you, your family, and your home (and even for your neighbours).

Parrot Sanctuary is strongly committed to the welfare of the birds relinquished to us. Most of our birds come from owners who for one reason or another can no longer care for their companion birds.

All adoptions require an Adoption Fee and include a 1 month probationary period. During this time, if you and your family decide that the adoption is not working for you, YOU MUST contact us to return the bird to Parrot Sanctuary for a full refund of the adoption fees (less \$50 to cover admin & travel) within the dates specified.

The following application has been designed to aid both you and us in determining whether you or your family are the type of owners we seek for adoption of the birds from Parrot Sanctuary.

I understand that filling out this questionnaire does not guarantee that I will be able to adopt a parrot from Parrot Sanctuary. Each adoption is at the discretion of the adoption committee, which strives to place a particular parrot with the most suitable home. Parrot Sanctuary does not have a *'first come, first serve'* policy.

Bird ownership is a serious responsibility. The policy of the Parrot Sanctuary is to assure that each person who adopts a bird is aware of this responsibility and that they are morally, financially and physically capable of accepting it. Not everyone who wishes to own an exotic bird should own an exotic bird.

If the above criteria have been met, and the adoption process is successful, arrangements will be made to visit your home with your new companion bird. We will provide you with a list of your companion's likes and dislikes (favourite foods & toys; what makes him/her anxious; safety precautions; health care concerns; and much more.) We will require that our Adoption Contract be signed, and will contact your references (so please let them know we will be calling).

Please answer ALL the questions and feel free to explain any answers or add additional comments. If a question does not apply, please write "N/A". We ensure that all of your information is kept confidential.

These Adoption Fees are to give you an idea of the approximate range, but each parrot will have its own individual Adoption Fee based on different factors (from specific needs to age).

Type of Bird	Adoption Fee	Cage & Accessories
Budgies	\$25	Included when available
Cockatiels , Lovebirds	\$50	Included when available
Medium-sized Parrots (Conures, Pionus, Quakers)	\$300 to \$600	Included when available
Large-sized Parrots (Greys, Amazons, Cockatoos, Macaws)	\$600 to \$1,000	Included when available

What are some foods toxic to parrots? _____

Are you aware that birds require a great deal of attention and maintenance, are expensive to keep fed, healthy, housed and entertained? Yes No

How much do you think the bird(s) you are interested in cost to keep annually? _____

Parrot Behaviour

In the wild, parrots spend much of the time exercising and foraging for food. They are highly intelligent and social creatures. It is your responsibility as the primary caregiver to create as much opportunity for enrichment to ensure the well being of a parrot in its daily life. "A busy beak is a happy beak." Many parrots in captivity do not have their emotional, physical and dietary needs met and as a result may suffer from a compromised existence that may lead to a wide range of behavior and health issues.

Are you aware that these habits are hard to change? Yes No

Are you also aware that parrots (also known as Hook Bills) have a normal urge to chew anything that may tempt their destructive beaks (however inappropriate), especially if left unsupervised? Yes No

(This includes furniture, blinds, curtains, buttons, jewelry, carpet, molding, and any other household items within reach.)

How will you deal with chewing? _____

Are you aware that parrots may develop the following habits: Biting, screaming, "becoming seemingly jealous" over your partner, being fearful of people and objects, leaving droppings everywhere. Yes No

If the bird develops a bad habit, what action would you take? _____

Under what circumstances would you not be able to keep the bird?

Moving	Allergies	Prefers one person to another
Divorce/separation	Does not get along with other pets	Messiness
New baby	New relationship	Behaviour issues
New Job	Serious illness	Biting
Screaming	Chewing furniture	Other _____

Adoption Application

Parrot Sanctuary.ca

Are you willing to take a bird that currently has behavior problems? Yes No Explain _____

Are you willing to accept bird with physical challenges ? Yes No

Many parrots have the capability of talking, but some will not talk. Some will make lovely sounds – or potentially scream continuously in loud pitches. Are you/your household prepared to deal with this? Yes No

They may just need attention, food, affection or simply something to occupy them. They may also be injured or frightened. They may also have habits that could be hard to change. How would you handle these behavioural challenges? _____

How many hours a day would the parrot be left alone? _____

How many hours a day would the parrot be caged? _____

How many hours a day would the parrot have freedom to exercise outside of its cage? _____

Would you purchase a play stand for your new bird? _____

What kind of toys will be provided? _____

The Directors of the Parrot Sanctuary are available to help in any way possible to promote a healthy and happy co-existence between your new parrot and yourself. (Please do not hesitate to contact us!)

Thank you for your interest in adopting and caring for parrot!

Marie-Elisabeth Gagnon

President,

Parrot Sanctuary.ca

Thank you for taking the time to complete this application. The Parrot Sanctuary reserves the right to refuse adoption to any applicant. If approved, this application becomes a part of the Adoption Contract. I understand the responsibility involved with adopting and caring for a companion bird. I also agree not to intentionally breed this bird for myself or commercial purposes. And finally, I understand and agree that the bird(s) I am adopting are not mine to sell or give away: if for any reason I no longer want this bird, or am no longer able to care for it, I am obliged to return it to the Parrot Sanctuary. I may not sell, trade or give away the bird(s) to a third party.

I am 19 years or older & I have read and agree to all of the above. (Can be signed in person if sent via email)
